

Refuting Textbook Arguments for Evolution

Wednesday June 1st at 6:30 pm

This presentation exposes the flaws and fallacies of common textbook "evidences" for Darwinian evolution based on origin of life experiments, mutations coupled with natural selection, irreducibly complex biological systems, "vestigial" organs, anatomical homology, molecular homology, embryological recapitulation, and the fossil record. The presentation closes by

examining known frauds that are still employed in current textbooks to "prove" Darwinian evolution is true.

About the Speaker: Dr. Thomas Kindell was once an ardent believer in the "fact" of evolution. However, through his exposure to the scientific case for creation, he became a zealous creationist. He has received advanced training in scientific creationism through the Graduate School of the Institute for Creation Research in Santee, California. He has been privileged to study under several of the world's most prominent creationist scientists. He also has studied Christian Apologetics and Biblical-Scientific Creationism at California Graduate School of Theology where he received his M.A. in Biblical Studies. He holds a Doctorate in Philosophy of Theology (major in philosophy of Biblical apologetics.) Dr. Kindell is the founder and president of Reasons for Faith Ministries. <http://kindell.nwcreation.net/>

Join us the 1st Wednesday each month for multimedia presentations by educators, scientists, and authors that are dedicated to defending the Bible against naturalism. The events are free and open to the public and suitable for ages 11 up.

Cedar Park Church Main Sanctuary 16300 112th Ave NE Bothell, WA
